

About Us

The North American Millers' Association represents millers of wheat, corn, oats, and rye. Our members turn raw grain into flour and other ingredients that are used to make favorite foods, such as bread, cereals, pasta, tortillas, cookies, cakes, and snack foods. We're proud to be the indispensable link between raw grain and healthy and delicious products that have sustained and enriched people's lives for centuries.

NAMA's 37 members have 149 locations across 31 states, Puerto Rico, and Canada. Utilizing the technical expertise of our members and staff, we represent the milling industry before the White House, federal agencies, and Congress. We also host signature events that bring together milling and allied industry leaders.

OUR MEMBER LOCATIONS

NAMA members are actively engaged in the dry milling of raw grain for food, and range in size from multinational corporations to regional family-owned businesses.

The North American Millers' Association is an equal opportunity provider and employer.

OUR PRIORITIES

FARM POLICY - The farm bill and its farm programs were established to support U.S. producers who are the foundation of the most abundant, high-quality food supply in the world. NAMA engages to support policies that champion the grain industry and ensure a strong food supply.

FOOD REGULATIONS - Food safety is a core value for the milling industry and our members are actively involved in a range of regulatory programs that support the production of safe milled grain products.

GRAIN RESEARCH - NAMA supports agricultural research to improve grain quality, disease resistance, and yield potential.

INTERNATIONAL FOOD AID - NAMA supports international food assistance programs and advocates for the continued use of U.S. food donations in the USAID Food for Peace and McGovern-Dole Food for Education Programs.

TRADE - NAMA supports free trade and trade agreements that increase foreign market access and build new markets for U.S. products.

NUTRITION - Grain foods are affordable staples that create the foundation for a healthy and balanced diet for American consumers and people around the world.

SUSTAINABILITY - As the link between farmers and finished products, millers have an important role in the sustainability of the U.S. food supply. NAMA supports programs and policies that foster equal opportunities for all crops.

TRANSPORTATION - Transportation is a key component in getting low-cost, nutritious foods to consumers. The milling industry relies heavily on rail and truck transportation, making policies in these arenas imperative to the movement of milled grain.

WORKER SAFETY - NAMA supports the safety of workers in the milling industry through promotion of safe practices and engagement with the Occupational Safety and Health Administration and other agencies that impact the workplace.

The Link Between Grain and Goodness
