HIRSHORN MUSEUM CONSTRUCTION

AEM
Association of Equipment Manufacturers

CELEBRATION OF
CONSTRUCTION
ON THE NATIONAL MALL
MAY 14 – 16, 2025 | 9AM – 5PM

**BUILDING A
STRONGER
AMERICA**

1 John Deere / Wirtgen Group

See how John Deere and Wirtgen machines shape America's roads and learn about the full road-building process, from grading to milling.

2 Komatsu

Discover how Komatsu equipment powers infrastructure projects that connect and grow communities across North America.

3 KIOTI Tractor

Get hands-on with KIOTI's compact skid steer and track loaders, known for powerful performance, comfort, and versatility.

4 KATO Compact Excavator Sales LLC

See KATO's diverse range of compact construction machines, from excavators to crawler carriers and concrete buggies.

5 American Traffic Safety Services Association (ATSSA)

Learn how ATSSA is advancing roadway safety through training, advocacy, and cutting-edge traffic control solutions.

6 American Road & Transportation Builders Association (ARTBA)

Discover lifesaving resources at workzonesafety.org and learn how ARTBA is helping protect workers and drivers nationwide.

7 National Asphalt Pavement Association (NAPA)

Meet an engineer, discover rewarding careers, and see how industry innovations keep America moving.

8 Topcon Positioning Systems

See how Topcon's positioning tech enables faster, smarter, and more sustainable construction with automation and precision tools.

9 Bobcat Company

Explore Bobcat's legendary compact equipment and see advanced features like remote operation and safety tech in action.

10 Vermeer Corporation

Learn about Vermeer's powerful construction machinery through visual displays, product literature, and hands-on interaction.

11 National Utility Contractors Association (NUCA)

See how utility contractors are modernizing America's underground infrastructure and supporting resilient communities.

12 Common Ground Alliance (CGA)

Step into immersive virtual reality training experience in damage prevention and safe digging practices.

13 AEM Utility & Ag Water Management

Learn about opportunities for increased efficiency throughout the water value chain, from source through transport all the way to in field agricultural applications, and how technology provides opportunities to improve these efficiencies to solve for water challenges.

14 Wacker Neuson

See how Wacker Neuson has "all it takes!" for the construction job site, including zero emission equipment.

15 Gradall Industries LLC

Experience Gradall's versatile highway-speed excavators with telescoping booms designed for mobility and precision across jobsites.

16 Associated Equipment Distributors (AED)

Meet the voices representing the equipment dealers who keep America's construction sector supplied, supported, and growing.

17 Caterpillar Inc.

Celebrate 100 years of Caterpillar innovation and discover how their technology is shaping a more sustainable construction future.

18 BOMAG Americas

Discover BOMAG's advanced road construction equipment focused on sustainability, innovation, and alternative energy solutions.

19 American Society of Civil Engineers (ASCE)

Pick up ASCE's 2025 Report Card for America's Infrastructure and your state report card, as well as explore how engineers are designing the cities of the future and the economic benefits of investing in infrastructure.

20 International Union of Operating Engineers (IUOE)

Meet the skilled professionals who operate America's heavy equipment and learn how they're training the next generation.

21 JLG Industries

Discover the leading brand of Access equipment in the world and see how JLG and the Oshkosh family of products support U.S. jobs and construction projects.

22 American Rental Association (ARA)

Learn about the role of equipment rentals in modern construction and view featured rental-ready machines on display.

23 Anderson Underbridge

Learn how Anderson Underbridge equipment provides safe access under bridges for inspection, maintenance, and more.

24 Liebherr USA, Co.

Explore Liebherr's technological advancements, efficiency improvements, and safety features that are shaping the future of the construction industry.

25 CASE Construction Equipment / New Holland Construction

Explore CNH's powerful equipment lineup designed to tackle today's toughest construction challenges with advanced technology, enhanced operator comfort, and a focus on sustainability.

26 Link-Belt Excavators

Experience innovation at the Link-Belt interactive booth with a live autonomous excavator demonstration and the Pink-Belt machine, representing a strong tradition of community support.

27 SANY America

Get in the seat of SANY's new compact track loader. Play cornhole and learn more about the future of manufacturing in Peachtree City, Georgia.

28 National Stone, Sand & Gravel Association (NSSGA)

Stop by NSSGA's display to learn about the foundational materials behind every major infrastructure project.

29 DEVELON

Experience DEVELON's excavator paired with a tilt rotator, showcasing cutting-edge precision and flexibility on the job site.

30 Hydrema US

View Hydrema's electric truck and compact equipment designed for sustainability, low ground pressure, and tech career inspiration.

31 Engine Technology Forum

Explore how today's internal combustion engines are cleaner and more efficient, helping power a sustainable construction future.

Learn about the **AEM Manufacturing Express** tour that showcases the stories of the 2.3 million men and women in the equipment manufacturing industry who help build, power, and feed the world.

33 Cummins

Explore the evolution of engine technology with Cummins' display of advanced diesel and hydrogen-powered engines.

34 JCB

Explore JCB's American-made equipment and discover how this global brand is investing in U.S. jobs and infrastructure.

35 International Safety Equipment Association (ISEA)

Learn how ISEA sets the standards for protective gear and technologies used in construction and heavy industry.

36 OSHA Alliance Program

37 Association of Equipment Manufacturers (AEM) Safety Materials.

Learn how AEM drives the construction industry forward through their product safety, sustainability, and leadership initiatives. Explore AEM safety materials and gain insight into important industry trends and technologies.

38 Stellar

Check out Stellar's field service trucks designed to keep America's construction fleets running strong, including mechanic and hooklift trucks.

39 Kubota Tractor Corporation

Explore Kubota's compact construction equipment lineup—including track loaders and excavators—and meet representatives from veteran support organizations highlighting their partnership with Kubota.

40 LeeBoy

Stop by LeeBoy's booth for giveaways and information on their trusted road construction and maintenance equipment.
